

ABOUT US

EclantiqX specialize in Low-Code/No-Code platforms, AI-driven automation, cloud-native engineering, and enterprise operations, enabling our clients to build smarter, faster, and more resilient businesses. With a strong focus on customer value, we combine deep domain knowledge, proven delivery frameworks, and cutting-edge technologies to solve real-world challenges across industries. Our services span the full digital lifecycle from strategy and development to managed operations and intelligent support. At EclantiqX, innovation is embedded into everything we do. Whether it's accelerating go-to-market with agile delivery, optimizing enterprise systems with intelligent automation, or modernizing legacy platforms, we partner with organizations to drive sustainable outcomes with measurable impact.

Business Consulting

CONSTELLATION LAB

Dedicated Constellation Lab for React-Based Delivery
 Expertise in Headless & Modular UI Design
 Enterprise-Ready, Component-Driven UIs

CDH & DATA PRACTICE

Pega CDH Expertise with Deep Data Integration
 Unified Data Architecture & AI-Driven Analytics
 Data-Driven Strategy Meets Domain Expertise

eATLAS

ECLANTIQX AI TRANSFORMATION FOR LEGACY APPLICATION SUITE

Bridge Legacy to Smarter Future

Modernize legacy applications into intelligent, future-ready Pega Blueprints with AI-powered automation

eMS

ECLANTIQX MANAGED SERVICES

Intelligent AI, Beyond Support

Self-Initiated resolutions, proactive monitoring and intelligent upgrades Agentic AI, that acts, adapts and accelerates transformations

eCK

ECLANTIQX CONSTELLATION KIT

Customize, Accelerate, Deliver

Empowers enterprises to craft pixel-perfect, design-system-aligned experiences. Our accelerator drives unmatched agility, consistency, and time-to-value

eKYCHUB

INTELLIGENT EVENT PROCESSING

Smarter Compliance, Faster Action

Transform event chaos into real-time clarity with Agentic AI processing Accelerate Action, ensure compliance and reduce cost.

eSSH

SMART SUSTAINABILITY HUB

Cleaner Carbon via Intelligence

Real-time AI-driven carbon tracking and optimization via automated dashboards, incentive-based rewards, and real-time suggestions for EV and solar.

eSE

SUSTAINABILITY ENGINE

Measure, Analyze, Act with Insight

Platform that simplifies ESG scoring, drives transparent and accelerates compliance. Centralize ESG insights and automate evaluations.

CLIENT TESTIMONIALS

The development team from Eclantiq has shown resilience & exceptional work ethic throughout the year. I would like to thank all of you for your hard work all these months.

- Sr Project Manager, British financial Group

We are extremely pleased to see how you have taken the majority of the tasks and finished them on time and you guys did a fabulous job!

- Account Head, Leading American Bank

Your team's expertise and commitment were exceptional. The engagement delivered a 2x boost in process efficiency and 1.8x ROI, propelling us ahead of our transformation goals.

- Project Director, Australian Government

The team consistently demonstrated professionalism, strong collaboration with stakeholders, and a genuine willingness to understand and support our business needs.

- Sr Project Manager, An Irish Financial Conglomerate
